

Test an Adult

Can you go home and test an adult to see if they know if the following symbols are safe or unsafe.

Symbol		
	<input type="checkbox"/> Safe	<input type="checkbox"/> Unsafe
	<input type="checkbox"/> Safe	<input type="checkbox"/> Unsafe
	<input type="checkbox"/> Safe	<input type="checkbox"/> Unsafe

Have a look at these questions and tick which one you think is correct

Would you use the report abuse button to:		
<input type="checkbox"/> Report nasty text messages	<input type="checkbox"/> Report nasty comments online	<input type="checkbox"/> Report face to face arguments

When would you block someone online?		
<input type="checkbox"/> If they kept sending you nasty or abusive messages online	<input type="checkbox"/> If they kept inviting you to events on social media	<input type="checkbox"/> If they kept liking your profile pictures or comments on social media

Why is it important to have privacy settings in place?		
<input type="checkbox"/> So that everyone cant see how old you really are?	<input type="checkbox"/> So that all your personal information is safe and secure?	<input type="checkbox"/> To make sure people can see all your personal information?

Here are two passwords that I have created, which one do you feel is the best to help keep my personal information safe?

Examples: Kadeem15!!! | K@d2015em

Now I'd like you to have a go at creating your own safe password
